Email : [gielo0111@gmail.com](mailto:gielo0111@gmail.com)

Mobile : (+64) 22 153 5568

Visa: Post Study Work Visa (Until May 2029)

## PROFESSIONAL SUMMARY

---

- Front-End Developer with over 3 years of experience building responsive web applications and user interfaces. Recently completed a Master of Applied Management in NZ with a focus on Business Information Systems. Strong foundation in HTML5, CSS3, JavaScript, and modern frameworks (React, TypeScript). Available to start in 2 weeks with full NZ work rights until 2029.

## KEY HIGHLIGHTS

---

- **Impact:** 4x map performance improvement — 90% storage reduction — 99.99% data accuracy — 25% faster page loads
- **Scale:** Architected systems serving 10,000+ policyholders — Processed \$10,000+ daily transactions
- **Tech Stack:** TypeScript, React, Node.js, Python, Docker, Azure (Certified)

## EXPERIENCE

---

- **Orcas Consulting Ltd.** Raglan, New Zealand  
*Software Engineer Intern* Nov. 2025 – Feb. 2026
  - **Tide Forecasting for fishermen and surfers:** Developed web scraping pipelines and modern interface components to support marine location analytics. Available at: <https://www.rippleforecast.com/tide>
  - **Web Scraping to reduce manual data collection time by 20+ hours:** Engineered Python-based scraping pipelines to extract structured data from third-party sources, eliminating over 20 hours of manual data collection.
  - **Optimized Map function loading speed by 4x:** Optimised interactive map responsiveness by implementing Map Marker Clustering for thousands of coastal points, resulting in a 4x faster initial map rendering speed.
  - **Reduced File Storage Size by over 90%:** Created Python Script to convert large GEO-JSON files into compressed ZARR format, reducing storage size by over 90% and improving data retrieval efficiency.
  - **Rapid Prototyping:** Utilised Replit AI to accelerate development cycles, cutting prototype turnaround times by 40% for cloud-based feature testing and collaborative deployment.
- **Evidentful** Cromwell, New Zealand  
*Junior AI Engineer Intern* Dec. 2024 – Mar. 2025
  - **AI Search POC:** Designed and built a proof-of-concept for AI-powered search using hybrid keyword and vector retrieval with Meilisearch, demonstrating enhanced semantic search relevance.
  - **Vector Workflows:** Implemented vector search workflows to explore embedding-based retrieval, improving the system's ability to handle natural language queries accurately.
  - **Containerization:** Containerized applications using Docker to ensure consistent development, testing, and deployment environments across internal projects.
- **Manulife / John Hancock** Makati, Philippines  
*Full Stack Software Engineer* Aug. 2021 – Sept. 2024
  - **Full-Stack Architecture:** Architected and deployed enterprise-grade features across microservices, REST APIs, and React-based UIs, serving 10,000+ policyholders on a transactional insurance platform. <https://www.coverme.com/travel-insurance/get-a-quote>
  - **ETL & Data Engineering:** Engineered daily ETL pipelines processing \$10,000+ in financial transactions, implementing reconciliation logic that eliminated force-balance errors and achieved 99.99% data accuracy.
  - **Client Support & Maintenance:** Managed website support tickets and performed routine maintenance, resolving client-reported issues and implementing feature enhancements with a focus on attention to detail and timely delivery.
  - **Frontend Performance Optimization:** Optimized client-side performance by 25% through React/Redux state management, code splitting, and lazy loading, directly improving user conversion rates.

- **Test Automation & CI/CD:** Designed and implemented a WebDriverIO-based end-to-end test automation framework integrated with CI/CD pipelines, reducing manual regression testing by 10+ hours per release.
- **Agile Leadership:** Served as acting Scrum Master for a cross-functional team, facilitating sprint planning, daily stand-ups, and retrospectives to improve delivery velocity and team alignment.

## • Denso Ten Solutions

Pasig City, Philippines

*Embedded Software Engineer*

*Aug. 2018 – July 2021*

- **Embedded Systems Validation:** Developed and executed validation test cases for automotive ECU components, ensuring 100% test coverage and compliance with functional safety requirements for vehicle systems.
- **Test Automation & MATLAB:** Engineered MATLAB-based scripts to automate test input generation and output validation, improving test coverage and verification accuracy by 30%.
- **Environment & Infrastructure:** Architected and maintained secure test environments using IBM Eclipse and system log tracking tools, enabling reliable, repeatable validation processes for mission-critical systems.
- **Technical Documentation & Client Collaboration:** Delivered comprehensive technical documentation and system configuration guides in Japanese, directly collaborating with international clients to align requirements and accelerating team onboarding by 40%.

## PROJECTS

---

- **RippleForecast Tides (Internship):** Built Python web scraping pipelines and optimized map rendering with clustering for 4x faster performance. <https://www.rippleforecast.com/tide>
- **CoverMe Travel Insurance (Company Project):** Full-stack transactional platform with automated quote computations serving 10,000+ policyholders. <https://www.coverme.com/travel-insurance/get-a-quote>
- **SQL Analytics Dashboard (Solo Project):** Designed relational databases and built interactive dashboards using Streamlit for data visualization. <https://gielofernandez-sql-project.streamlit.app/>

## EDUCATION

---

### • Future Skills Academy International

Auckland, New Zealand

*Master of Applied Management; Major in Business Information Systems*

*Oct. 2024 – Apr. 2026*

### • University of Santo Tomas

Manila, Philippines

*Bachelor of Science in Computer Science*

*June 2012 – July 2017*

## PROGRAMMING SKILLS

---

- **Core Front-End:** HTML5, CSS3, JavaScript, TypeScript, React, Redux, Responsive Web Design **CMS Platforms:** WordPress (Basic/Working Knowledge)
- **Backend Development:** Node.js (NestJS, Express), Python, Java, REST APIs, Microservices, ETL Pipelines
- **Testing & Quality:** Test Automation (WebDriverIO), TDD, CI/CD Integration, Manual Validation (MATLAB)
- **DevOps & Cloud:** Docker, Jenkins, CI/CD Pipelines, Microsoft Azure (AZ-900 Certified), Git
- **Databases:** SQL, NoSQL, CosmosDB
- **AI & Emerging Tech:** Meilisearch (Vector Search), Replit, GitHub Copilot
- **Methodologies:** Agile, Scrum (Scrum Master Experience), Jira, Confluence

## CERTIFICATIONS & LANGUAGES

---

- **Certifications:** Datacamp AI Fundamentals (2025), Microsoft Certified Azure Fundamentals AZ-900 (2023), AutoCAD Training (2018)
- **Languages:** English (Fluent), Japanese (JLPT N4), Korean (Basic)
