Visa: Post Study Work Visa (Until May 2029)

PROFESSIONAL SUMMARY

- Product/Software Engineer with 6+ years of experience across full-stack development, data engineering, and system configuration. Strong technical competence in SQL, Python, and PowerShell scripting, with a background in building data pipelines and analytics tools. Recently completed a Master of Applied Management in NZ, combining deep technical expertise with strategic business thinking. Full NZ work rights until 2029.

KEY HIGHLIGHTS

- **Impact:** 4x map performance — 90% storage reduction — 99.99% data accuracy — 25% faster page loads — Time-series data optimization
- **Scale:** Systems serving 10,000+ users — \$10,000+ daily transactions — Large-scale time-series datasets
- **Tech Stack:** Python, SQL, PowerShell, React, TypeScript, Azure (Certified), Docker

EXPERIENCE

- **Orcas Consulting Ltd.** Raglan, New Zealand
Software Engineer Intern Nov. 2025 – Feb. 2026
 - **Industrial Data Platform (Time-Series Analytics):** Built a data platform for marine location analytics, processing time-series tidal data for forecasting applications serving fishermen and surfers. Available at: <https://www.rippleforecast.com/tide>
 - **Data Engineering & ETL Pipelines:** Engineered Python-based ETL pipelines to scrape and process structured data from third-party sources, eliminating 20+ hours of manual collection.
 - **Optimized Map function loading speed by 4x:** Optimized data visualization by implementing Map Marker Clustering, achieving 4x faster rendering for thousands of real-time data points.
 - **Reduced File Storage Size by over 90%:** Converted large time-series GEO-JSON datasets into compressed ZARR format, reducing storage by 90% and improving retrieval efficiency for time-based queries.
 - **Rapid Prototyping:** Utilised Replit AI to accelerate development cycles, cutting prototype turnaround times by 40% for cloud-based feature testing and collaborative deployment.
- **Evidentful** Cromwell, New Zealand
Junior AI Engineer Intern Dec. 2024 – Mar. 2025
 - **AI-Powered Search & Data Retrieval:** Built a proof-of-concept for semantic search using hybrid keyword and vector retrieval, demonstrating enhanced data discovery and natural language query processing.
 - **Data Processing Workflows:** Implemented vector search workflows to improve the system's ability to process and retrieve information from natural language queries.
 - **Containerization & Deployment:** Containerized applications using Docker to ensure consistent development, testing, and deployment environments across internal projects.
- **Manulife / John Hancock** Makati, Philippines
Full Stack Software Engineer Aug. 2021 – Sept. 2024
 - **Full-Stack Architecture:** Developed and deployed enterprise-grade features across microservices, REST APIs, and React-based UIs, serving 10,000+ policyholders on a transactional insurance platform. <https://www.coverme.com/travel-insurance/get-a-quote>
 - **ETL & Data Engineering:** Engineered daily ETL pipelines processing \$10,000+ in financial transactions, implementing reconciliation logic that eliminated force-balance errors and achieved 99.99% data accuracy.
 - **Client Support & Maintenance:** Managed website support tickets and performed routine maintenance, resolving client-reported issues and implementing feature enhancements with a focus on attention to detail and timely delivery.

- **Frontend Performance Optimization:** Optimized client-side performance by 25% through React/Redux state management, code splitting, and lazy loading, directly improving user conversion rates.
- **Test Automation & CI/CD:** Designed and implemented a WebDriverIO-based end-to-end test automation framework integrated with CI/CD pipelines, reducing manual regression testing by 10+ hours per release.
- **Agile Leadership:** Served as acting Scrum Master for a cross-functional team, facilitating sprint planning, daily stand-ups, and retrospectives to improve delivery velocity and team alignment.

• Denso Ten Solutions

Pasig City, Philippines

Embedded Software Engineer

Aug. 2018 – July 2021

- **Embedded Systems Validation:** Developed and executed validation test cases for automotive ECU components, ensuring 100% test coverage and compliance with functional safety requirements for vehicle systems.
- **Test Automation & MATLAB:** Engineered MATLAB-based scripts to automate test input generation and output validation, improving test coverage and verification accuracy by 30%.
- **Environment & Infrastructure:** Built and maintained secure test environments using IBM Eclipse and system log tracking tools, enabling reliable, repeatable validation processes for mission-critical systems.
- **Technical Documentation & Client Collaboration:** Delivered comprehensive technical documentation and system configuration guides in Japanese, directly collaborating with international clients to align requirements and accelerating team onboarding by 40%.

PROJECTS

- **RippleForecast Tides (Internship Project, 2026):** Built a time-series data platform processing tidal data for forecasting applications. Engineered Python ETL pipelines, optimized large datasets, and delivered real-time visualizations. <https://www.rippleforecast.com/tide>
- **CoverMe Travel Insurance (Enterprise Project, 2023):** Full-stack transactional platform with automated quote computations serving 10,000+ policyholders. <https://www.coverme.com/travel-insurance/get-a-quote>
- **SQL Analytics Dashboard (Personal Project, 2026):** Designed relational databases and built interactive dashboards using Streamlit for data visualization. <https://gielofernandez-sql-project.streamlit.app/>

EDUCATION

- **Future Skills Academy International** Auckland, New Zealand
Master of Applied Management; Major in Business Information Systems *Oct. 2024 – Apr. 2026*
- **University of Santo Tomas** Manila, Philippines
Bachelor of Science in Computer Science *June 2012 – July 2017*

TECHNICAL SKILLS

- **Backend & Data Engineering:** Python, SQL (SQL Server, T-SQL), PowerShell, ETL Pipelines, Data Processing, Scripting
- **Frontend & UX:** React, TypeScript, JavaScript, HTML5, CSS, Responsive UI, UX Design Principles
- **Databases:** SQL Server, T-SQL, Stored Procedures, Query Optimization, NoSQL, CosmosDB, Time-Series Data
- **Testing & Quality:** WebDriverIO, TDD, Automated Testing, Manual Validation
- **Methodologies:** Agile, Scrum (Scrum Master), Jira, Confluence, System Configuration

CERTIFICATIONS & LANGUAGES

- **Certifications:** Datacamp AI Fundamentals (2025), Microsoft Certified Azure Fundamentals AZ-900 (2023), AutoCAD Training (2018)
- **Languages:** English (Fluent), Japanese (JLPT N4), Korean (Basic)
