Professional Summary

- AI Business Transformation Analyst with a Master of Applied Management in Business Information Systems and 6+ years of experience in process improvement, data analysis, and technology implementation. Passionate about AI and automation with hands-on experience using ChatGPT, Claude, GitHub Copilot, and Replit AI. Strong analytical skills with a proven track record of improving processes (40% troubleshooting reduction) and achieving 99.99% data accuracy. Full NZ work rights until 2029. Available to start in 2 weeks.

Key Highlights

- **AI & Transformation:** ChatGPT, Deepseek, Claude, GitHub Copilot, Replit AI — AI-driven process improvement — Workflow automation — Digital transformation
- **Business Analytics:** Data analysis — Process improvement (40% reduction) — Reporting — Business case development
- **Technical Skills:** Python, SQL, Excel, PowerPoint — Data analysis — Automation scripting
- **Availability:** Available to start in 2 weeks — Full NZ work rights until 2029

Experience

- **Manulife / John Hancock** — Makati, Philippines
  Full Stack Software Engineer — *Aug. 2021 – Sept. 2024*
  - **Process Improvement & Automation**: Identified and implemented process improvements, leveraging automation and data analysis to achieve 99.99% accuracy on financial data processing. Engineered daily data pipelines processing $10,000+ in transactions.
  - **Business Analysis & Reporting**: Analysed business requirements, prepared reports and presentations for stakeholders, and translated business needs into technical solutions.
  - **AI-Assisted Development**: Leveraged AI tools (GitHub Copilot, ChatGPT) to accelerate development cycles and improve productivity.
  - **Stakeholder Communication**: Managed client communications and stakeholder relationships, facilitating meetings and providing regular project updates.
  - **Project Coordination**: Served as acting Scrum Master, coordinating cross-functional teams and ensuring timely project delivery.
- **Denso Ten Solutions** — Pasig City, Philippines
  Software Quality Assurance — *Aug. 2018 – July 2021*
  - **Process Improvement & Documentation**: Authored comprehensive documentation and system configuration guides. Reduced troubleshooting times by 40% through clear, organised documentation and process improvements.
  - **Client Communication**: Communicated with international clients and prepared technical reports in Japanese. Supported team onboarding through comprehensive training materials.
  - **Quality Coordination**: Managed defect tracking and reporting processes with clear documentation. Collaborated with cross-functional teams and participated in progress reporting.
- **Orcas Consulting Ltd.** — Raglan, New Zealand
  Software Engineer Intern — *Nov. 2025 – Feb. 2026*
  - **AI-Assisted Development**: Leveraged Replit AI and GitHub Copilot to accelerate development and testing cycles, cutting prototype turnaround times by 40% and improving automation efficiency.
  - **Data Engineering & Analytics**: Engineered Python-based ETL pipelines to scrape and process structured data, eliminating 20+ hours of manual data collection.

Projects

- **RippleForecast Tides (Internship Project, 2026)**: Built a time-series data platform processing tidal data for forecasting applications. Engineered Python ETL pipelines, optimized large datasets, and delivered real-time visualizations. https://www.rippleforecast.com/tide
- **CoverMe Travel Insurance (Enterprise Project, 2023)**: Full-stack transactional platform with automated quote computations serving 10,000+ policyholders. https://www.coverme.com/travel-insurance/get-a-quote
- **SQL Analytics Dashboard (Personal Project, 2026)**: Designed relational databases and built interactive dashboards using Streamlit for data visualization. https://gielofernandez-sql-project.streamlit.app/

Education

- **Future Skills Academy International** — Auckland, New Zealand
  Master of Applied Management; Major in Business Information Systems — *Oct. 2024 – Apr. 2026*
- **University of Santo Tomas** — Manila, Philippines
  Bachelor of Science in Computer Science — *June 2012 – July 2017*

Skills

- **AI Platforms & Tools**: ChatGPT, Claude, Gemini, GitHub Copilot, Replit AI, Microsoft Copilot (familiar)
- **Business Analysis**: Process Improvement, Data Analysis, Reporting, Business Case Development, Requirements Gathering, Stakeholder Communication
- **Analytical & Technical**: Python, SQL, Excel, PowerPoint, Power BI, Jira, Confluence
- **Methodologies**: Agile, Scrum, Project Coordination, Process Documentation

Certifications & Languages

- **Certifications:** Datacamp AI Fundamentals (2025), Microsoft Certified Azure Fundamentals AZ-900 (2023), AutoCAD Training (2018)
- **Languages:** English (Fluent), Japanese (JLPT N4), Korean (Basic)
