Email : gielo0111@gmail.com
Mobile : (+64) 22 153 5568
Visa: Post Study Work Visa (Until May 2029)

Professional Summary

- Full-Stack Software Developer with 6+ years of experience building web applications using React, TypeScript, and modern JavaScript frameworks. Experienced in the insurance industry at Manulife/John Hancock, delivering enterprise-grade features for a transactional platform serving 10,000+ policyholders. Strong experience in SQL Server, Azure, REST APIs, and cloud technologies. Proven track record of optimizing page load speeds by 25% and delivering scalable solutions. Available to start in 2 weeks with full NZ work rights until 2029.

Key Highlights

- **Insurance Domain:** Manulife/John Hancock (transactional insurance platform, 10,000+ policyholders)
- **Performance Impact:** 25% faster page loads — 4x map performance — 10+ hours saved per release
- **Tech Expertise:** React, TypeScript, JavaScript, SQL Server, Azure, REST APIs, GraphQL
- **Full SDLC:** Requirements Gathering, Development, Testing, Deployment, Support
- **Availability:** Available to start in 2 weeks — Full NZ work rights until 2029

Experience

- **Manulife / John Hancock** — Makati, Philippines
  Full Stack Software Engineer — *Aug. 2021 – Sept. 2024*
  - **Full-Stack Architecture**: Developed and deployed enterprise-grade features across microservices, REST APIs, and React-based UIs, serving 10,000+ policyholders on a transactional insurance platform. https://www.coverme.com/travel-insurance/get-a-quote
  - **ETL & Data Engineering**: Engineered daily ETL pipelines processing $10,000+ in financial transactions, implementing reconciliation logic that eliminated force-balance errors and achieved 99.99% data accuracy.
  - **Client Support & Maintenance**: Managed website support tickets and performed routine maintenance, resolving client-reported issues and implementing feature enhancements with a focus on attention to detail and timely delivery.
  - **Responsive Web Development**: Built responsive, accessible user interfaces for enterprise insurance platform, ensuring consistent experience across all devices and browsers for 10,000+ policyholders.
  - **Testing Strategy & Execution**: Designed comprehensive test strategies covering functionality, performance, and regression testing for enterprise COTS insurance platform. Leveraged AI tools (GitHub Copilot) to accelerate test case generation and maintained clear documentation of test outcomes.
  - **Agile Leadership**: Served as acting Scrum Master for a cross-functional team, facilitating sprint planning, daily stand-ups, and retrospectives to improve delivery velocity and team alignment.
- **Orcas Consulting Ltd.** — Raglan, New Zealand
  Software Engineer Intern — *Nov. 2025 – Feb. 2026*
  - **Industrial Data Platform (Time-Series Analytics)**: Built a data platform for marine location analytics, processing time-series tidal data for forecasting applications serving fishermen and surfers. Available at: https://www.rippleforecast.com/tide
  - **Data Engineering & ETL Pipelines**: Engineered Python-based ETL pipelines to scrape and process structured data from third-party sources, eliminating 20+ hours of manual collection.
  - **Optimized Map function loading speed by 4x**: Optimized data visualization by implementing Map Marker Clustering, achieving 4x faster rendering for thousands of real-time data points.
  - **Reduced File Storage Size by over 90%**: Converted large time-series GEO-JSON datasets into compressed ZARR format, reducing storage by 90% and improving retrieval efficiency for time-based queries.

- **AI-Assisted Development & Testing**: Leveraged Replit AI and GitHub Copilot to accelerate development and testing cycles, cutting prototype turnaround times by 40% and improving test automation efficiency for cloud-based features.

- **Evidentful** — Cromwell, New Zealand
  Junior AI Engineer Intern — *Dec. 2024 – Mar. 2025*
  - **AI-Powered Testing & Search Solutions**: Built proof-of-concept for AI-powered search using hybrid keyword and vector retrieval. Applied AI-driven approaches to data discovery and natural language query processing, demonstrating ability to work with AI/agentic technologies.
  - **Data Processing Workflows**: Implemented vector search workflows to improve the system's ability to process and retrieve information from natural language queries.
  - **Containerization & Deployment**: Containerized applications using Docker to ensure consistent development, testing, and deployment environments across internal projects.

- **Denso Ten Solutions** — Pasig City, Philippines
  Software Quality Engineer — *Aug. 2018 – July 2021*
  - **Manual & Automated Testing**: Designed and executed comprehensive test cases for automotive ECU components, ensuring 100% test coverage and compliance with functional safety requirements. Performed integration, regression, and system testing.
  - **Test Automation**: Engineered MATLAB-based scripts to automate test input generation and output validation, improving test coverage and verification accuracy by 30%.
  - **Defect Tracking & Reporting**: Identified, documented, and tracked software defects using Eclipse and system log tracking tools, providing clear feedback to developers for timely resolution.
  - **Quality Documentation**: Authored comprehensive test documentation and system configuration guides, reducing troubleshooting times by 40% and accelerating team onboarding.

Projects

- **RippleForecast Tides (Internship Project, 2026)**: Built a time-series data platform processing tidal data for forecasting applications. Engineered Python ETL pipelines, optimized large datasets, and delivered real-time visualizations. https://www.rippleforecast.com/tide
- **CoverMe Travel Insurance (Enterprise Project, 2023)**: Full-stack transactional platform with React/TypeScript frontend serving 10,000+ policyholders. Implemented responsive UI, state management, and performance optimization. https://www.coverme.com/travel-insurance/get-a-quote
- **SQL Analytics Dashboard (Personal Project, 2026)**: Designed relational databases and built interactive dashboards using Streamlit for data visualization. https://gielofernandez-sql-project.streamlit.app/

Education

- **Future Skills Academy International** — Auckland, New Zealand
  Master of Applied Management; Major in Business Information Systems — *Oct. 2024 – Apr. 2026*

- **University of Santo Tomas** — Manila, Philippines
  Bachelor of Science in Computer Science — *June 2012 – July 2017*

Technical Skills

- **Programming Languages**: JavaScript, TypeScript, Python, C, C++, C# (working knowledge), SQL, HTML, CSS
- **Backend & Data Engineering**: GraphQL, Python, C#, SQL (SQL Server, T-SQL), ETL Pipelines, Data Processing, Scripting
- **Frontend & UX**: React, Next.js, React Native (familiar), TypeScript, JavaScript, HTML5, CSS, SCSS, XML, JSON, Responsive UI, UX Design Principles, Web Performance, Accessibility, SEO
- **Databases**: SQL Server, T-SQL, Stored Procedures, Query Optimization, NoSQL, CosmosDB, Time-Series Data

- **DevOps & Cloud**: Microsoft Azure (AZ-900 Certified), Docker, Git, CI/CD Pipelines
- **Testing & QA**: WebDriverIO, Manual Testing, Automated Testing, Regression Testing, Integration Testing, REST API Testing, Test Case Design, Test Strategy, Defect Tracking, Exploratory Testing, Sonarqube
- **Automation Tools**: WebDriverIO, Selenium, Playwright (working knowledge), RestSharp (familiar)
- **Methodologies**: Agile, Scrum (Scrum Master), Jira, Confluence, System Configuration, Full SDLC
- **Agentic/AI Testing**: GitHub Copilot, Replit AI, ChatGPT/Claude, AI-Assisted Test Generation, Agentic Workflows, Model Context Protocol (working knowledge)

Certifications & Languages

- **Certifications:** Datacamp AI Fundamentals (2025), Microsoft Certified Azure Fundamentals AZ-900 (2023), AutoCAD Training (2018)
- **Languages:** English (Fluent), Japanese (JLPT N4), Korean (Basic)
